About USHLI

USHLI is an award-winning Chicago-based national, non-profit, non-partisan organization. The four pillars of its work are education, servant leadership development, civic engagement, and research. USHLI is recognized as an official source of demographic characteristics, socio-economic statistics, and other data provided by the U.S. Census Bureau.

Mission

The mission of the United States Hispanic Leadership Institute (USHLI) is to fulfill the promises and principles of democracy by promoting education, leadership development, civic participation in the electoral process, and research. To that end USHLI has:

Track Record

- Trained over 1,050,000 present and future leaders
- Awarded over $1.6 million in scholarships and internships
- Registered 2.3 million voters
- Published 425 reports on Latino Demographics, including the Almanac of Latino Politics
- Organized 40 national conferences attended annually by present and future leaders representing 40 states
The USHLI Conference has become the premier Hispanic leadership conference in the nation, attracting a complete cross-section of our leadership community and involving all ancestry groups. Over 6,500 present and future leaders representing 40 states have historically attended various events throughout our three-day annual conference. Our 2020 conference demographic survey included over 1,300 participant surveys: 90% were between the ages of 18-34, 67% were female, and 81% were attending or had completed college. The survey also found that 6.5% of our attendees were pursuing an advanced degree. Participants included high school and college students, graduates, young professionals, public officials, and senior citizens representing a cross-section of America’s $2.7 trillion Latino consumer market.

Our National Conference provides an extraordinary opportunity for students and young professionals to interact with college recruiters, national policymakers, and future employers. Participants will hear nationally prominent, standing-ovation quality speakers, and expert presenters in highly interactive workshops and forums. The goals of the conference are to develop and/or strengthen participants’ leadership skills, provide access to resources and opportunities, strengthen cultural identities and pride, and to promote growth as servant leaders.
