

LATINO/A LEADERS RECOGNITION LUNCHEON

Saturday, February 17 | 12:00 PM - 02:00 PM

Latino and Latina leaders are impacting all areas of American society, most notably in the public and private sectors. With over 7,000 public officials now serving at all levels of government, 21 corporate CEOs and 273 members currently on Fortune 500 Boards, five million business owners, and a \$3.4 trillion GDP, the Hispanic community is arguably moving forward.

Our keynote speaker will be a prominent public or private sector figure, and prominent leaders will be given special recognition. Graduates of our university campus-based Leadership in Public Policy Program will also be recognized.

The luncheon will be attended by 1,500 participants including students in higher education, young and mid-career professionals, public officials, corporate and labor representatives, educators, and community leaders.
